## LAVAGRIP & XTREME GRIP ANTI-SLIP PROTECTION

**Rust-Oleum GripAll** provides you with various levels of anti-slip protection ranging from medium provided by **LavaGrip** to aggressive offered by **XtremeGrip**. This versatile anti-slip solution is composed of a polyurea substrate covered in a durable anti-slip aggregate attached via a strong self-adhesive back. These stair treads are easily cut to custom sizes and can be screwed down for additional security. Suited for interior and exterior applications! Also available in versatile ladder rung covers.

### LavaGrip®

Superior traction control

Textured surface for ensures sure footing- yet still gentle enough for barefoot traffic

### XtremeGrip®

Aggressive traction control

Embedded steel studs create an heavy-duty durable surface to protect against slips

Patented stud design defeats debris that may compromise traction. Mud, wet leaves, grass clipping, oil, snow and ice are no match

### LavaRungs®

Creates traction control on ladder rungs

Designed for round ladder rungs and scaffolding rungs

Pliable to form to any 3/4" to 2 1/2" rung
